Eumundi State School is renowned for its academic achievements, effective behaviour management and focus on the growth and development of every child. At Eumundi we see each child as an individual.

Eumundi Primary is a school with a proud heritage and genuine concern for the students and families of the local Eumundi community. We have an open classroom approach and parents are welcome to assist in class activities.

The school offers a comprehensive and inviting curriculum based on an inquiry approach to learning. This approach aims to stimulate each child’s curiosity and creativity, culminating in a love of learning. Active citizenship, the development of responsibility and self-discipline are an integral part of our school’s supportive, caring environment.

Specialist programs at the school include: Extension Maths and Ignite English, Science and Environment Studies, Prep-Year 2 Connect Support Program, Art, Drama, Physical Education, Italian, Music and Instrumental Music.

In this digital world, all classrooms are equipped with interactive whiteboards, with the school also having 2 computer labs and wifi laptops available for classroom use.

If you are looking for a school with a modern approach to education combined with traditional values then I invite you to visit our school and meet our professional team.

We would welcome the opportunity to share in the development of your child because at Eumundi we believe that – "While we live we grow."
